

HOST TRAINING ESTABLISHMENT(HTE)			OJT(QUESTIONS IN THE FORM)
TECHNICAL SKILLS		No of items/sub category	
CATEGORY	SUB CATEGORIES		
Developer Skills Assessment	GENERAL PROGRAMMING CONCEPTS	3	1,2,3
	PROBLEM SOLVING AND LOGIC	3	4,5,6
	Code Quality & Best Practices	3	7,8,9
	Object-Oriented Programming	3	10,11,12
	Debugging & Testing	3	13,14,15
	Developer Tools & Practices	4	16, 17, 18,19
	TOTAL ITEM	19	
Database Management	Basic Concepts	3	20,21,22
	SQL Queries	4	23,24,25,26
	Database Design & Normalization	5	27,28,29,30,31
	TOTAL ITEM	12	
System and Software Development	Software Development Life Cycle (SDLC)	3	32,33,34
	System Development Concepts	2	35,36
	Software Engineering Practices	4	37,38,39,40
	TOTAL ITEM	9	
WEB DEVELOPMENT	HTML & CSS	3	41,42,43
	JavaScript & Client-Side Scripting	3	44,45,46
	Backend Development & Databases	4	47,48,49,50
	TOTAL ITEM	11	
Python Programming	Python Basics	3	51,52,53
	Variables & Data Types	3	54,55,56
	Control Structures	2	57,58
	Functions & OOP	5	59,60,61,62,63
	TOTAL ITEM	13	
JAVA	Java Syntax and Data Types	3	64,65,66
	Operators and Program Flow	2	67,68
	TOTAL ITEM	5	
SOFT SKILLS			
CATEGORY	SUB CATEGORIES		
SOFT SKILLS	Communication Skills Assessment	5	69,70,71,72,73
	Problem-Solving and Analytical Skills Assessment	5	74,75,76,77,78
	Time Management Skills Assessment	5	79, 80,81,82,83
	Workplace Ethics and Professionalism Assessment	5	84,85,86,87,88
	TOTAL ITEM	20	

FORMULA IN GETTING THE EQUIVALENT GRADE

Compute the percentage per subcategory

sub category PERCENTAGE = $\frac{\text{SCORES}}{\text{TOTAL NO OF ITEMS/sub category}} \times 100$

Compute the percentation per CATEGORY

CATEGORY PERCENTAGE = $\frac{\text{TOTAL SCORES(accumulated scores of sub categories)}}{\text{TOTAL ITEM(CATEGORY)}} \times 100$

Percentage(Nakuhang Score ni student per Category)	Equivalent Grade(ito yung sa likert scale na sinasagutan naman ni HTE)	Descriptive Rating
96 -100	5	Excellent
90 -95	4	Very Good
80 – 89	3	Good
75 – 79	2	Fair
Below 75	1	Poor

HOST TRAINING ESTABLISHMENT PERCENTAGE EXAMPLE (General Programming Concepts)

= $\frac{4+5+5}{15} \times 100$
= 93.3 EQUIVALENT = 4

STUDENTS WHO GETS 3,2,1 “ YOU NEED TO ENHANCE YOUR SKILLS IN GENERAL PROGRAMMING CONCEPTS)

HOST TRAINING ESTABLISHMENT PERCENTAGE EXAMPLE (Developer Tools & Practices)

= $\frac{5+5+5}{15} \times 100$
= 100 EQUIVALENT = 5

HOST TRAINING ESTABLISHMENT PERCENTAGE EXAMPLE (PROBLEM SOLVING)

= $\frac{4+4+4+4}{20} \times 100$
= 80 EQUIVALENT = 3

STUDENT PERCENTAGE EXAMPLE (General Programming Concepts)

= $\frac{1+1+1}{3} \times 100$
= 100 EQUIVALENT = 5

= $\frac{0+0+1}{3} \times 100$

3

= 33.33 EQUIVALENT = 1

GENERAL PROGRAMMING CONCEPTS

1. C++
2. HTML
3. Variable type can change at runtime
4. Binary Search
5. Array or Linked List
6. Stack
7. Don't Repeat Yourself (reuse functions and avoid duplicate code)
8. totalPrice, studentName
9. They help humans understand the code

OBJECT-ORIENTED PROGRAMMING

10. Inheritance, Encapsulation, Polymorphism
11. new
12. Hiding internal details using private variables and public methods

DEBUGGING & TESTING

13. Logic error
14. Test individual functions or modules
15. IDE Debugger

DEVELOPER TOOLS & PRACTICES

16. Git
17. git push
18. All of the above

JAVA SKILLS ASSESSMENT

19. Redefining a method of the parent class in the child class
20. Pass by value sends a copy, pass by reference sends the memory address
21. class
22. String
23. final int MAX = 100;
24. 5
25. public static void main(String[] args)

DATABASE MANAGEMENT

21. MySQL
22. Unique and not null
23. It enforces a relationship between two tables
24. SELECT
25. WHERE
26. TRUNCATE
27. The number of rows in Students table
28. Normalization
29. Each field must contain atomic (indivisible) values
30. Indexing
31. Create a separate Grades table with foreign key to Students table
32. It combines rows from two or more tables based on related columns

SYSTEM AND SOFTWARE DEVELOPMENT

33. Requirement Analysis → Design → Implementation → Testing → Deployment → Maintenance
34. Agile
35. Faster adaptability to change and collaboration
36. Checking whether the project is financially, technically, and operationally possible
37. The system must process 1,000 requests per second
38. Testing
39. Restructuring existing code to improve readability and maintainability without changing behavior
40. Git

41. Agile

WEB DEVELOPMENT

- 42. <a>
- 43. A block-level container for grouping content
- 44. <style> body {color: blue;} </style> inside <head>
- 45. var, let, or const
- 46. "object"
- 47. It can manipulate HTML and CSS dynamically
- 48. HTTP/HTTPS
- 49. CSS
- 50. SELECT
- 51. The website adapts to different devices and screen sizes

PYTHON PROGRAMMING

- 52. print("Hello World")
- 53. High-level, interpreted language
- 54.
- 55. <class 'int'> <class 'str'>
- 56. List
- 57. value_2
- 58. 0 1 2
- 59. while loop
- 60. def myFunc():
- 61. The ability to reuse existing code by deriving new classes from old ones
- 62. class
- 63. **init()**

COMMUNICATION SKILLS

- 69. Maintain eye contact and use clear, confident tone
- 70. Good day Sir/Ma'am,
- 71. Nod, take notes, and ask clarifying questions
- 72. Listen, discuss the reasons, and find a compromise
- 73. Politely ask for clarification before responding

PROBLEM-SOLVING & ANALYTICAL SKILLS

- 74. To provide a step-by-step solution to a problem
- 75. Check the new code changes for logical errors
- 76. Algorithm B
- 77. The variable in the condition is not being updated correctly
- 78. Break the problem into smaller, manageable parts

TIME MANAGEMENT SKILLS

- 79. Work on the major project because it takes the most time
- 80. It helps organize tasks clearly and track progress effectively
- 81. Create a daily or weekly schedule to allocate time for each task
- 82. Break large tasks into smaller, easier parts
- 83. Inform your instructor or supervisor early and request an extension

WORKPLACE ETHICS & PROFESSIONALISM

- 84. Report it to your team leader or instructor
- 85. Admit the mistake, fix it, and learn from it
- 86. Listen respectfully and offer constructive feedback
- 87. Keep it private and discuss it only with authorized people
- 88. Following company policies and meeting deadlines
